

Christmas MAD Money
How much cash is the big bait
Til the end of the game you'll have to wait
It could be enough for a fun shopping spree

OR

Just enough for a Snapple Ice Tea
So ponder your risk
should you trade or hold?
You could have some fun or
be out in the cold!

Sure all the mall trips will keep you hopping
So a gift card to help with the holiday
shopping

The store you may like or then again not
Could be filled with items that are geeky not
hot

How much and to where not revealed til later.
You must decide be a trader or a waiter!
